

Kinsman Road and Pipeline Project

The City of Wilsonville, with partial federal aid assistance from the Federal Highway Administration, is constructing an extension of Kinsman Road, north of Barber Street to Boeckman Road. The extension will improve north-south access, fill in roadway gaps for freight mobility, and improve connections for businesses, residents and transit. The project includes a nearly half-mile long road extension, with bike lanes and sidewalks. In conjunction with the roadway improvements, an upsized sanitary sewer pipe will be installed in the right-of-way to serve the planned development in the Basalt Creek and Coffee Creek areas.

Work has begun on the Kinsman Road Project.

As part of a coordinated effort between agencies, the Willamette Water Supply Program is partnering with Wilsonville to construct a water pipeline in the right-of-way at the same time the road is being built. This project represents one of many partnership opportunities along the 30-mile water pipeline route. Construction for the road and pipeline project will begin in the summer of 2016, with completion anticipated in summer 2018.

The coordinated, combined construction of the pipeline and the road extension will result in significant cost savings for water ratepayers. Partnering opportunities minimize community and neighborhood impacts by eliminating the need for multiple construction projects.

The project is utilizing a “Buy America” policy that supports US-made products, a commitment to meeting diversity targets, and on the job training opportunities. Local water pipe manufacturer Northwest Pipe Company is manufacturing the pipe for this section of Willamette Water Supply pipeline.

Our Future Water Supply

Tualatin Valley Water District (TVWD) and the City of Hillsboro are partnering to develop the mid-Willamette River at Wilsonville as an additional water supply source.

There is enough water for today—but steps need to be taken now to have an adequate supply to meet future demands and provide greater reliability.
