Wilsonville Area Pipeline Project

Phase 1

The Wilsonville Area Pipeline Project (PLM_1.0) is a 3.3-mile section of pipeline that will be built in three phases from the Willamette River Water Treatment Plant (WRWTP) to the intersection of SW Garden Acres Road and Day Road. Phase I (PLM_1.1) includes 0.26 miles of 66-inch diameter pipeline that will begin at the east bank of Arrowhead Creek near the entry to the WRWTP to just south of Wilsonville Road. James W. Fowler Co., a local general contractor based in Dallas, Oregon, and operating since 1972, was recently awarded the construction contract. Construction will include pipeline installation crossing Coffee Lake Creek. Preliminary construction activities are scheduled to begin this month with project completion anticipated by spring 2020.

Wilsonville Area Pipeline Project

Phase 2

The Wilsonville Area Pipeline Project Phase 2 (PLM_1.2) includes 0.58 miles of 66-inch diameter pipeline that extends from Ridder Road to Day Road. This opportunity project is being managed by the City of Wilsonville in partnership with the Willamette Water Supply Program (WWSP). Wilsonville and WWSP staff have been coordinating closely to prepare for pipeline installation and plan for Wilsonville’s Garden Acres Road Half Street Improvements Project, which supports Wilsonville’s economic development efforts in the Coffee Creek Industrial Area. Combining the pipeline and street improvements will reduce construction impacts and save money through cost sharing. Preliminary road construction work is scheduled to begin this month with pipeline construction beginning in November. The project is anticipated to be complete by the beginning of 2021.
Procurement & Business Opportunities

WWSP staff are preparing for several upcoming professional services and construction contractor procurements. Listed below are active procurements and upcoming events and procurements. Procurement opportunities are also published at [http://www.ourreliablewater.org/business-opportunities](http://www.ourreliablewater.org/business-opportunities).

Active Procurements
- Willamette Water Supply System (WWSP) Water Treatment Plant (WTP_1.0) Equipment Procurement (July 30)

Upcoming Procurements
- None at this time

Schedule Summary

WWSP design and planning began in 2013; the Willamette Water Supply System is expected to be in service by July 2026. Below are the major milestones and activities forecasted from 2019 to 2022*. The WWSP team is committed to on-time delivery. See page 4 for descriptions of the projects referenced below.

*The actual order and duration of projects continues to be refined and is subject to change.
Forecast Cost Summary

The graph below illustrates the projected WWSP cash flow by fiscal year (FY July 1 to June 30)*. The cumulative cash flow establishes the budgeted $1.3 billion, which accounts for actual and current projected costs, including projected escalation in the cost of labor, materials, and equipment required to build WWSP projects.

Cumulative Cost Summary

WWSP cumulative costs are tracked and updated monthly. The chart below summarizes the distribution of cumulative costs through June 2019.

*Data continues to be refined and is subject to change.
Willamette Water Supply Program

July 2019

Cornelius Pass Pipeline Project
(Frances Road to Highway 26)
Description: 3.3-mile water pipeline along Cornelius Pass Rd. from Frances St. to Hwy 26; connects to existing supply lines for City of Hillsboro and TVWD.
Status: Design Phase (Design Start: 07/2019)

South Hillsboro Area Pipeline Project
(Farmington Road to Frances Street)
Description: 3.9-mile water pipeline from SW Farmington Rd. at SW 209th Ave. to Cornelius Pass Rd. at Frances St.; also east on Kinnaman Rd. between Cornelius Pass Rd. and SW 209th Ave.
Status: Construction Phase (Phase 1: Complete; Phase 3 Construction Start: 06/2020)

Metzger Pipeline East Project
(Roy Rogers Road to Beaverton Hillsdale Hwy)
Description: 7.3-mile water pipeline to be built in lieu of PLE_1.0 along SW Scholls Ferry Rd. between SW Roy Rogers Rd. and Allen Blvd.; connects to Metzger service area at SW Oleson Rd. and TVWD’s system.
Status: Design Phase (Construction Start: 01/2021)

South Beaverton Area Water Storage Tanks
(Storage Tanks)
Description: Two 15-million gallon storage tanks located on Cooper Mountain.
Status: Planning Phase (Design Start: 04/2020)

Scholls Area Pipeline Project
(North of Beef Bend Road to Farmington Road)
Description: 7.2-mile water pipeline from SW Roy Rogers Rd. 0.5-mile north of SW Beef Bend Rd. to SW Farmington Rd. at SW 209th Ave.
Status: Construction Phase (Phase 1 Construction Complete: 10/2021; Phase 2 Complete: 11/2020)

Tualatin-Sherwood Area Pipeline Project
(SW 124th Avenue to north of Beef Bend Road)
Description: 5.3-mile water pipeline from 124th Ave. at SW Tualatin Sherwood Rd. along SW Roy Rogers Rd. to 0.5 miles north of SW Beef Bend Rd.
Status: Design Phase (Phase 1 Construction Start: 11/2019)

124th Avenue Partnership Project
(SW 124th Avenue Extension)
Description: 2.7-mile water pipeline from Grahams Ferry Rd. at Day Rd. to 124th Ave. at SW Tualatin Sherwood Rd.
Status: Complete

Kinsman Road Partnership Project
(Kinsman Road Extension)
Description: 0.5-mile water pipeline along Kinsman Rd. between Barber St. and Boeckman Rd.
Status: Complete

Wilsonville Area Pipeline Project
(WRWTP to Day Road)
Description: 3.3-mile water pipeline from WRWTP to the intersection of SW Garden Acres Rd. at Day Rd.
Status: Construction Phase (Phase 1 Construction Complete: 02/2020; Phase 2 Complete: 12/2020)
