## Heads Up!

Water pipeline construction  
is anticipated to begin in  
February 2022

The Willamette Water Supply Program and our local contracting staff will be working together to follow best health practices during the COVID-19 emergency, including physical distancing.

# WILSONVILLE AREA PIPELINE PROJECT CONSTRUCTION COMING SOON

Water pipeline construction is anticipated to begin in your area in winter 2022 and continue through 2024.

The Willamette Water Supply Program (WWSP) is coordinating with the City of Wilsonville to construct 12,200 feet of water pipeline from just south of the Wilsonville Road and Kinsman Road intersection to Garden Acres Road.

- Construction is anticipated to begin February 2022 and be completed in 2024.
- Work will occur along SW Kinsman Road, SW Boeckman Road, SW 95th Avenue, and SW Ridder Road.
- Construction will be phased to enhance safety and reduce traffic disruptions.

We are reaching out to you now because we know that construction activities can be disruptive. As pipeline design and permitting continue, we will share more information about potential traffic impacts.
