

Willamette Water Treatment Plant— We're searching for a top operator

Operators: Are you ready for Center Stage? Come lead our operations team!

- Get in on the ground floor and take the reins. Have a seat at the table for policy decisions.
- Commission and operate the most technologically advanced water treatment facility in the Pacific Northwest.
- Select your operations and maintenance team, and help build the culture.
- Requires Level IV operator certificate after one year.

Oregon's newest and most advanced water treatment plant comes online in 2026.

- Being built now on a wooded 40-acre site in Sherwood, Oregon
- It's big: 60 mgd (initial), 120 mgd (buildout)—and will set the gold standard for water treatment and public health.
- We have all the tools to keep the water safe: ballasted flocculation, ozone, UV – plus brand-new pipes, pumps and storage.

We are known for our happy, collaborative workforce.

We hope you join us!

"Since coming to Hillsboro in 2016 I have been impressed with the teamwork among operators and maintenance personnel, as well as management's support for continued growth."

"I have a job that I enjoy and is something I can be proud of. I look forward to work, I have never had a job that I feel offers continuous growth and the City always supports your learning and career advancement."
