

Allen Boulevard Final Paving Planned

Allen Boulevard restoration between Scholls Ferry Road and Western Avenue is tentatively scheduled to begin November 4th and, weather permitting, is anticipated to last approximately 25 working days (dates subject to change).

Thank you for your patience with our work. Two work activities are planned:

- A. Phase 1, Re-compaction—Crews will excavate the road base over the pipeline trench areas, place a specialized geotextile membrane where needed, then compact the road base and place pavement on top.
- B. Phase 2, Repaving—Crews will remove the top layer of the road surface from curb-to-curb, then place a fresh layer of pavement and restripe the road.

Construction will occur mostly during the day (7 am to 4 pm) but may require nightwork (8 pm to 5 am) at certain locations. Expect traffic restrictions and intermittent use of flaggers for both phases of work. Please take extra care when traveling through construction areas and plan extra time into your trips.

Expect:

- Traffic delays and congestion
- Noise and vibration
- Driveway access will be maintained
- No left hand turns for traffic entering Allen from connecting driveways
- Bicycle lane closures where vehicles and bicycles will share the road with automobiles
- Intermittent flaggers in use

PHASE 1: RE-COMPACTION

PHASE 2: REPAVING

Heads Up!

Allen Boulevard Final Paving Planned

Map and additional information inside

The Willamette Water Supply System (WWSS) is a partnership between the Tualatin Valley Water District (TVWD), City of Hillsboro, and City of Beaverton to build a new seismically resilient drinking water system by 2026. The MPE_1.0 project combines planned improvements by TVWD and the City of Beaverton water construction projects. The combined project maximizes cost-effectiveness and reduces community and environmental construction impacts. Those living, traveling, working, and shopping along portions of SW Scholls Ferry Road, SW Hall Boulevard, SW Cascade Avenue, SW Allen Boulevard and Western Avenue can expect various construction activities from the fall of 2021 until the fall of 2024.
